| Not Logged in | Can view but cannot access personal details | Cannot save itineraries to view later | Cannot save favorites to view later | Can book hotel, flights, activities | Can be directed |

Stage Approach

Our website allows users to book Itineraries through a stage approach

Steps For a Specific Booking e.g. (Only a Hotel or Flight or Activity/s)

Navigate to the Nomadia homepage and select the tab of the specific booking option you desire in the input bar. Then select destination, check-in, checkout, number of travelers and press search.

This should take you to the corresponding list of all hotels or flights or activities for your destination.

You may filter through results and then select the hotel (limit 1), flight (limit 1) or any number of activities.

Once you have selected the hotel, activities, or flight, you can navigate to the booking page by clicking the 'Continue button'.

After clicking the "Continue button" you will be taken to the booking page where you can either save your itinerary (only for logged in users) by clicking "Create Itinerary" or checkout by clicking "Checkout".

Steps for a combination of Hotels,Activities,Flights Booking

Navigate to the nomadia homepage and select the tabs of which booking options you'd like. Then select destination, check-in, checkout, number of travelers and press search.

You would be directed to a hotels page if hotels was selected. You can pick 1 hotel. And then press select in the top right corner. After you will be directed to the next tab you selected e.g. activities. You can select as many activities as you'd like. Then navigate to the top right to continue. Then finally you would be directed to flights where you could select 1.

After clicking the final "Continue button" on the Flights page you will be taken to the booking page where you can either save your itinerary (only for logged in users) by clicking "Create Itinerary" or checkout by clicking "Checkout".
